

Sith Colors

- Sith primary colors are blacks, grays, and reds/maroons/wine colors. Grays must be as dark or darker than the two lightest grays on the Sith Primary Grays chart. Primary reds/maroons/wine colors should look more red than pink or purple.
- Sith Secondary colors are dark blue (navy and darker), dark greens that are darker than Hex Color 09483D, and purples of medium to dark hue.
- Sith can use oranges and yellows for trim only. No neon or safety yellow or oranges will be permitted. Sith can also choose trim colors from the Secondary and Primary Color Charts.
